## SUMMARY

I am a fifth-semester Information Technology student at Sepuluh Nopember Institute of Technology (ITS) with a passion for data-driven problem solving. Strong interest in data analysis, with coursework in IoT and cloud computing optimization, and hands-on experience in C, C++, JavaScript, SQL, Linux, and building a full-stack web platform with React, TypeScript, Express, and PostgreSQL. I am open to opportunities as an internship programr.

## EDUCATION

**Sepuluh Nopember Institute of Technology** – Surabaya, Indonesia August 2024 – Present
*Bachelor Degree in Information Technology*
Undergraduate in intelligent Faculty of Electrical Engineering and Informatics for Information Technology major.

**SMAN 5 Bogor** – Bogor, IndonesiaJuly 2021 – Juny 2024
*High school graduate*

## OTHER EDUCATION & ONLINE COURSES EXPERIENCE

**Foundations of Cybersecurity** – Google, Coursera October 2026
- Gained foundational knowledge of cybersecurity, including core security domains, common threats, risks, and vulnerabilities.
- Explored the role of a security analyst, security frameworks and ethics, and common tools used in the field.

**Play It Safe: Manage Security Risks** – Google, Coursera October 2026
- Gained knowledge of security risk management, including assets, threats, vulnerabilities, security frameworks, and controls.
- Explored SIEM tools used to detect, investigate, and respond to security incidents.

**Connect and Protect: Networks and Network Security** – Google, Coursera October 2026
- Acquired knowledge of network architecture and protocols, including TCP/IP, firewalls, and VPNs.
- Learned to identify common network attacks and apply security hardening to protect networks.

**Tools of the Trade: Linux and SQL** – Google, Coursera October 2026
- Applied Linux commands in the Bash shell to navigate the file system, manage files, and set permissions.
- Applied SQL to query databases, including filtering data and joining tables.

## ORGANIZATIONAL & PROFESSIONAL EXPERIENCE

**Staff Finance ILITS Jakarta 2024** – Jakarta, Indonesia December 2024 – January 2025
- Actively involved securing funds for ILITS Jakarta by selling merchandise, conducting fundraising activities, and identifying opportunities to generate profit from the event.
- Supported the outreach mission of ILITS Jakarta, an initiative aimed at introducing Institut Teknologi Sepuluh Nopember (ITS) to high school students across Jakarta, and collaborated with team members to ensure finance sustainability through creative funding strategies.

**Staff Internship Mandiri PT Manulife (Agency Borobudur)** – Jakarta, Indonesia July 2025 – August 2025
- Assisted in the digital transformation of the Borobudur Agency's administrative and reporting systems, shifting from a manual process to an efficient online-based workflow, and developed structured online weekly and monthly reports for easier performance tracking and data accessibility.
- Served as meeting coordinator, ensuring smooth communication, documentation, and task delegation during internal sessions.

**Staff Internship PSDM HMIT ITS Kabinet Tuah Prakarsa** – Surabaya, Indonesia October 2025 - December 2025
- Served as Master of Ceremony (MC) at IT Boost, one of the work programs of the PSDM department of HMIT ITS.
- Provided supporting insight for the Pemetaan dan Pemantauan (Mapping and Monitoring) work program of PSDM HMIT ITS.

**Staff Internship Mandiri IT Support PT Manulife (Agency Borobudur)** – Jakarta, Indonesia July 2026 – August 2026
- Provided IT support by educating new agents on how to use the Manulife application ecosystem and its supporting digital tools.
- Built website Smart Insurance Agent Workspace (SIAW), a web-based sales enablement platform that centralizes prospects, follow-ups, and meeting notes for insurance agents, using React, TypeScript, Express, Prisma, and PostgreSQL.

## ACHIEVEMENTS

**Finalist – Interfest CTF** – Telkom University, Bandung, Indonesia
- Advanced to the finalist stage of Interfest CTF, a national-level Capture The Flag (CTF) cybersecurity competition organized by Telkom University, Bandung.
- Competed by solving cybersecurity challenges to capture flags, applying skills in cybersecurity and problem solving.

## SKILLS, INTERESTS, & OTHERS

**Language:** Fluent to speak and writing in Bahasa and English.
**Web Development**: React, Vite, Express.js, Flask, FastAPI, Streamlit, Tailwind CSS, REST APIs
**Databases & Data Engineering**: PostgreSQL, Prisma ORM, Apache Spark, PySpark, Hadoop, HDFS, ETL
**Machine Learning & AI:** PyTorch, Hugging Face Transformers, scikit-learn, CatBoost, LightGBM, Pandas, NumPy,Sentence Transformers
**Cybersecurity & Networking**: Linux, Kali Linux, Bash, Burp Suite, CyberChef, Web Security Testing, Cryptography Fundamentals
**Tools & Platforms:** Git, GitHub, Docker, Docker Compose, VS Code, Google Colab, Kaggle, Android Studio, Tinkercad, CloudSim, GNS3
**Soft Skills:** Critical Thinking, Analytical Skills, Mathematical Skills, Communication Skills, Computational Thinking.
**Hard Skills:** Microsoft Word, Microsoft Power Point, Canva.
